**Security System Basics** What is a Point? A “point” is a detection device, or group of devices connected to the security system. Points display individually with custom text. The text can describe a single door, motion sensor, smoke detector, or an area such as UPSTAIRS or GARAGE. There are two basic types of points, controlled and 24-hour.

Your system ...

Radionics security, now a part of Bosch Security, has been one of the more unique alarm manufacturers out there. They published a manual for every device they produced, and these tend to be a bit different as well. Radionics manuals are generally very thorough, and are specific to each model they apply to.
