

# Download Manual Transmission Powershift Zf Volvo Dump Trucks

Volvo has made the industry's most advanced automated transmission even better. The latest edition of the I-Shift includes upgraded hardware and software, greater durability and a new countershaft brake for improved performance and smoother shifting. When startability and maneuverability are critical, the I-Shift with crawler gears offers the highest weight capacity in an automated manual transmission. It enables controlled forward and reverse travel at extremely slow speeds. LOWER GEARS Volvo PT Series Articulated Truck Transmissions. Centranz specializes in remanufacturing Volvo PT transmissions. We rebuild many of these transmissions every year from our location based in the Midwest and are a primary provider for many equipment dealers and manufacturers in North America. ZF Ergopower II The ZF Ergopower L II is the automatic powershift transmission for dumpers with a capacity of up to 50 tons payload and a gross weight of up to 82,000 kg.
