Nimitz Class - This book is a mixed bag. The author is at his best when describing the Navy and naval actions. The book is awkward when he is trying to, what I believe to be, humanizing the characters. There is a lot of material in the book that could have been edited out without damaging the main plot. It might even have built suspense. Find helpful customer reviews and review ratings for Nimitz Class (Arnold Morgan, Book 1) at Amazon.com. Read honest and unbiased product reviews from our users.
